

**FREIGHT
FORWARDERS
SINCE 1981**

airtransa 
international partners

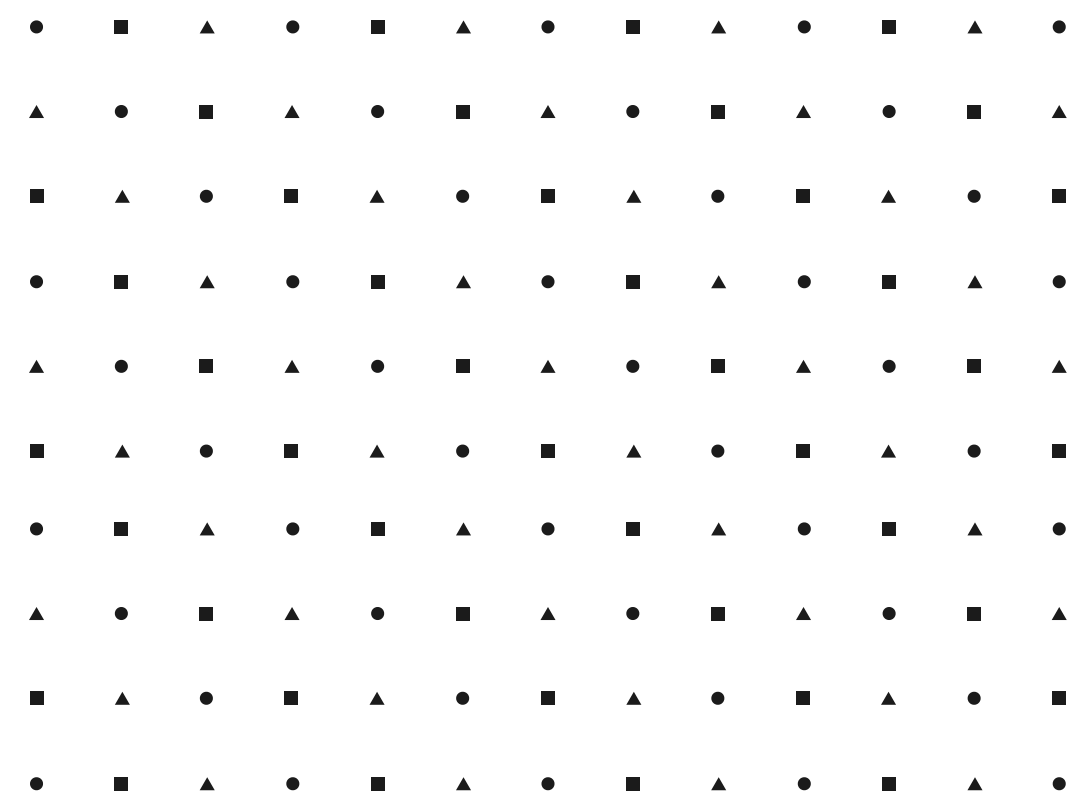

We welcome you

We're delighted to have you with us.

More than 30 years of experience warrant our service and commitment towards continuous improvement.

We offer strategic services for any company that requires maximum professionalism and transparency with its goods, in both national and international transport.

We are the first partner that any company with an international vocation and intensity must have, in terms of our strategic contribution in logistics and freight transport.

Our History

40 Years in a blink

Airtransa was founded in Barcelona in 1981 with the aim of concentrating the charges from various freight forwarders so as to have greater negotiating power. Over the years, one customs agent remains: Comas Giralt y CIA SRC, current owner of the firm since 2018.

During the company's 40-year life, contacts with agents' networks have been established worldwide through which we have been able to offer a full service to the whole world; improving the level of customization we provide to our customers, as the number of contacts and networks is increasing year-on-year.

We currently have a modest but efficient team of workers, with people experienced in the sector and with the same commitment to continue to provide the best service day after day.

Finally, in a delicate situation such as the current one, it's the best time to trust in a company such as Airtransa, as we always do our best to offer an optimum solution for both sides, adapting as much as possible to their changing needs.

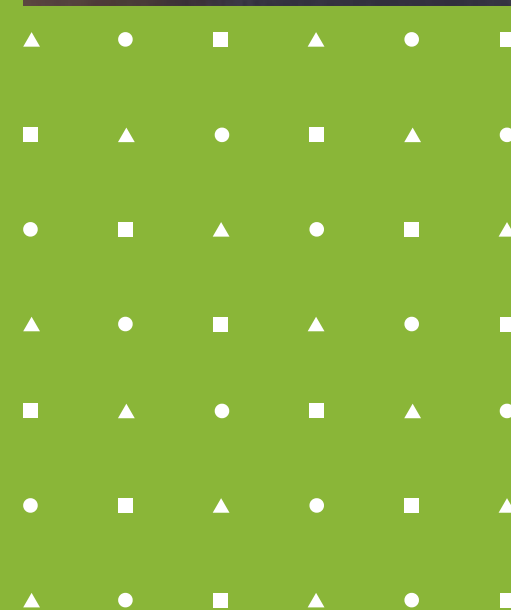

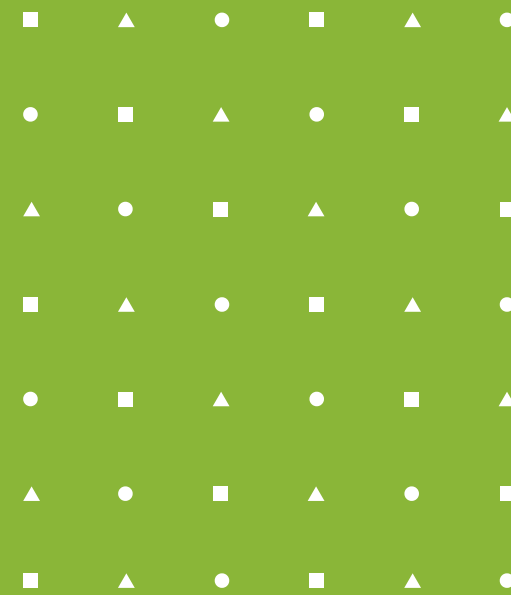

Strengths & Modalities

We mainly cover three modes of transport, which is why we have a wide range of options to arrive to the same destination:

- Maritime Transport
- Transport Air
- Road Transport

So many years of experience in a changing environment and in a dynamic sector have given us various attributes and strengths that we pride ourselves on and are a key factor in deciding on our services.

These are Flexibility, Strategy and Guaranty; the three cornerstones that lead the relationship with our customers, the planning of the operations and the results achieved.

Type of Goods

We work and coordinate logistics and deliveries of goods as diverse as:

- Biological samples for laboratories
- High-end jewelry with exclusive tracks
- Helicopters and aircraft parts

These are just some examples of the goods with which we work most assiduously, together with many other types, making us efficient and competitive by the use of our most important strength: flexibility towards our customers, and their needs.

**FREIGHT
FORWARDERS
SINCE 1981**

iThanks!

We look forward to work with you soon.
